

Supporting Advisory Boards

Turning Healthcare Strategy Into Action

SILVANA FISCHMAN, FOUNDER

About Chai Class Consulting ———

Chai Class Consulting helps healthcare organizations design and operationalize advisory boards that drive real-world impact. From provider engagement to market strategy, we ensure your advisory structure does more than convene experts it delivers actionable insights that strengthen programs, partnerships, and performance.

We help clients turn advisory feedback into measurable outcomes, aligning board insights with organizational goals and operational execution.

About the Founder ———

Silvana Fischman, DDS (Intl), MHA, CRC, brings over two decades of healthcare leadership experience, including developing physician engagement strategies, leading quality and risk adjustment programs, and guiding innovation adoption across multi-site organizations.

Her experience in both provider and operational roles enables her to design advisory boards that foster authentic collaboration, actionable dialogue, and strategic alignment between clinicians, executives, and industry partners.

Advisory Boards

How We Help

We support organizations in building advisory boards that inform decision-making, strengthen relationships, and accelerate innovation.

Our support includes:

- Designing advisory board structures aligned with organizational goals.
- Recruiting the right mix of experts, clinicians, and thought leaders.
- Facilitating effective meetings that produce actionable insights.
- Developing communication frameworks to sustain engagement beyond meetings.
- Translating board feedback into operational plans and measurable actions.
- Partnering with analytics, compliance, and industry experts to support evidence-based decision-making.

Impact

By working with us, organizations gain more than just an advisory group they gain a strategic partner for insight-driven growth. The results you can expect:

- Advisory boards that produce measurable outcomes and influence key initiatives.
- Stronger engagement from clinicians, executives, and stakeholders.
- Clear frameworks for turning insights into execution.
- Enhanced credibility and collaboration across industry networks.
- Sustainable governance and communication models that scale with growth.

How we work - “Our Engagement Model”

Project-Based Engagements

We take on both short- and long-term projects that solve complex problems or drive sustained transformation.

What this means for you:

- Fast-turn workflow redesigns or audit preparation.
- Multi-month rollouts of care delivery models or operational systems.
- Initiatives focused on measurable outcomes and lasting impact.
- Flexible support whether your timeline is weeks or months.

Retainer-Based Support

When you need consistent access to expert guidance and support, we offer flexible retainer arrangements.

What this means for you:

- Ongoing access to senior consulting, coaching, and problem-solving.
- Immediate help without starting a new engagement each time.
- Cost-effective way to stay aligned with strategic goals.
- Ideal for organizations navigating change or scaling operations.

Fractional Leadership

When you need experienced leadership without a full-time commitment, we can step in as a fractional COO or senior operations advisor.

What this means for you:

- Executive-level direction and decision-making expertise.
- Hands-on leadership to drive performance and results.
- Flexible involvement that adapts as your business evolves.
- Strategic expertise to align teams and deliver measurable outcomes.
